MANAGE TEST SESSIONS

VIEW REPORTS

Attention Data Administrators: This requires the column heading row. If the heading row is missing from your roster file, copy it from the roster test file on the Home page. X

MANAGE TESTING SESSIONS

Click Find Students to Test button for students or, if User Role includes Instructor, click Test My Class button to select class.

Class(es)

Class Name ▲

Test Now

Cancel

Show ▶

★ Click on **Select Status** & choose **all**

★ Click on Assign Test and choose 6+ Reading or 6+ Math

(If you forget to assign the test, it will ask students to pick the test. This is fine, but leaves more room for error, so ensure students click on the correct test.)

Attention Data Administrators: The roster import now requires the column heading row. If the heading row is missing from your roster file, copy it from the roster template, available from the Home page. ✕

TEST STUDENTS

Testing Session Name: pact3240... ID: 8349 Proctor Interrupt PIN ⓘ

Total Students: 32
Testing: 0

Proctor Action Needed
To Be Confirmed
Paused

End Testing Session

Add More Student(s) Refresh Status

Information on this page updates automatically every 60 seconds. Click Refresh Status to see current information.

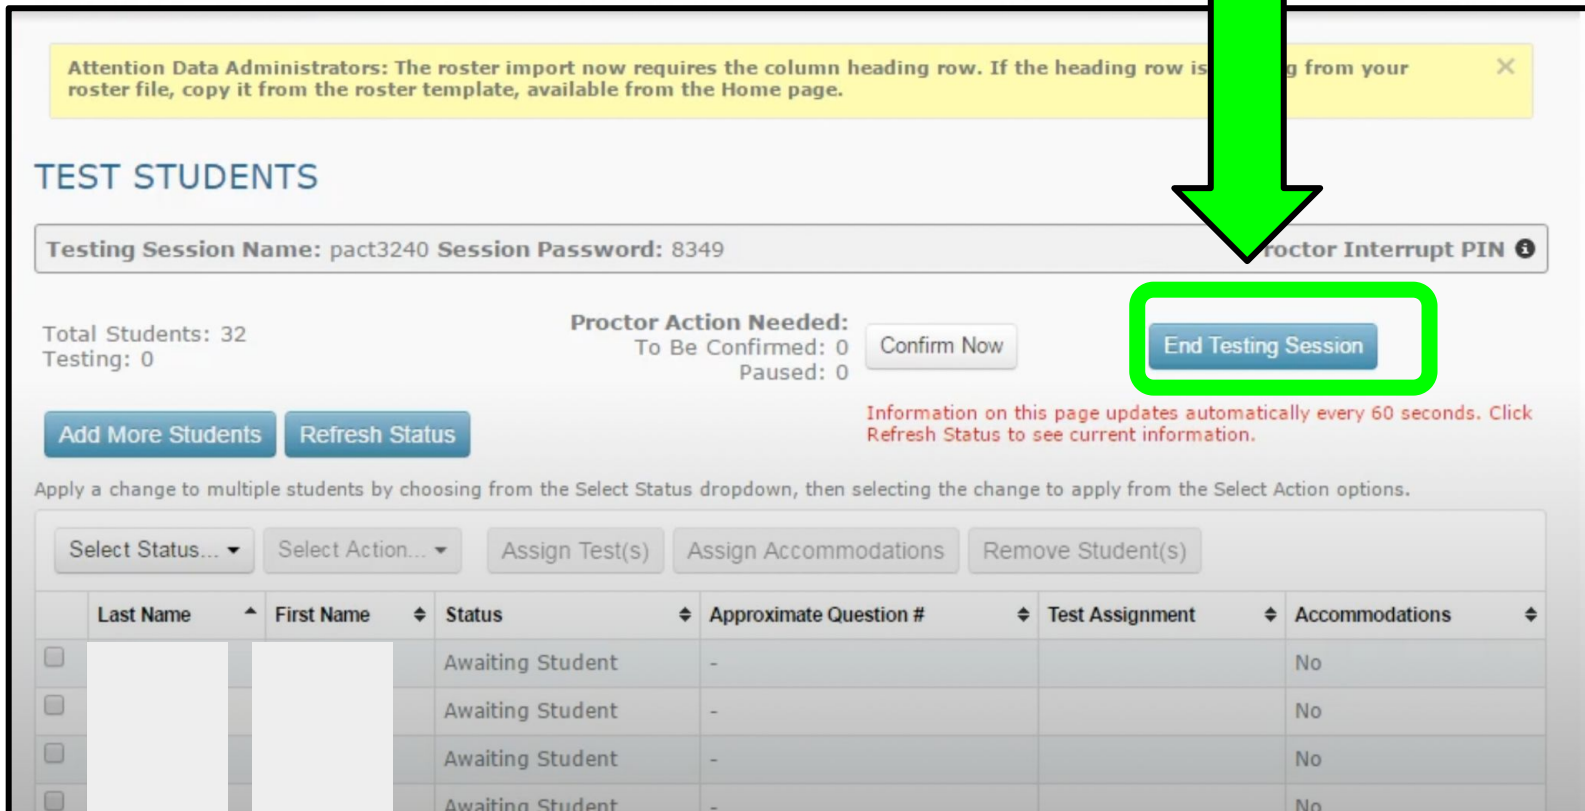

Apply a change to multiple students by choosing from the Select Status dropdown menu and selecting the change to apply from the Select Action options.

Select Status... Select Action... Assign Test(s) Assign Accommodations Remove Student(s)

Last Name	First Name	Status	Approximate Question #	Test Assignment	Accommodations
<input type="checkbox"/>		Awaiting Student	-		No
<input type="checkbox"/>		Awaiting Student	-		No
<input type="checkbox"/>		Awaiting Student	-		No
<input type="checkbox"/>		Awaiting Student	-		No

★ If all students finish, click **End Testing Session**, then delete the testing session.

★ If there are students who **don't finish testing**, select their name and click on **"Select Action"** to **suspend** their test. This will save their data for 28 days.

Attention Data Administrators: The roster import now requires the column heading row. If the heading row is missing from your roster file, copy it from the roster template, available from the Home page. X

Add More Students Refresh Status

Information on this page updates automatically every 60 seconds. Click Refresh Status to see current information.

Apply a change to multiple students by choosing from the Select Status dropdown, then selecting the change to apply from the Select Action options.

Select Status... Select Action... Assign Test(s) Assign Accommodations Remove Student(s)

	Last Name	First Name	Status	Approximate Question #	Test Assignment	Accommodations
<input type="checkbox"/>			Awaiting Student	-		No
<input type="checkbox"/>			Awaiting Student	-		No
<input type="checkbox"/>			Awaiting Student	-		No
<input type="checkbox"/>			Awaiting Student	-		No

★ Then, select “**End Testing Session**” and delete the testing session if you are not going to test this same set of students later.

(This will only delete the current session, not all of the students’ data - we need to delete the session in order to put them into a new testing group to finish at a later time.)

***You will need to end the testing session to begin the next testing session if you are running another session.**

Ending Testing Session

You are ending Testing Session **pact3240** . All tests for students actively testing will be suspended.

If you do not want to re-use this test session at a later date, click Delete Session.

If you want to re-use the test session at a later date, keep the test session name below or enter a new name and click Save and Exit

Do not use the following special characters:

Check the next page

if you run into any

NWEA MAP issues

If any issue arises, click on the box by the student's name
Click on the "Select Action" button and select "Suspend"

Then, click on the box by the student's name

Click on the "Select Action" button and then click "Test Again"

Have the student refresh their map page and log in again

The screenshot shows a testing interface with a header section and a table of students. The header includes 'Session Details' (Total Students: 9, Testing: 0), 'Action Needed' (To Be Confirmed: 0, Paused: 0), and a 'Confirm' button. There is also a 'Page updates every 60 seconds' indicator and a 'Refresh Page' button. On the right, there is a 'Rapid-Guessing Alerts' section showing '0 Paused' and '0 reached rapid-guessing threshold'. Below the header is a toolbar with buttons for 'Select Status...', 'Select Action...', 'Assign Test', 'Assign Accommodations', 'Add Student', 'Create Student', and 'Remove Student'. The 'Select Action...' dropdown is open, showing options: Confirm, Do Not Confirm, Pause, Resume, Suspend, Terminate, and Test Again. A purple box highlights the 'Suspend' option, and a large purple arrow points to it. The table below has columns for 'Last Name', 'Question #', 'Test Assignment', 'Accommodations', and 'Rapid Guesses'. The first row has a checked checkbox in the 'Last Name' column.

The screenshot shows the same testing interface as above. The 'Select Action...' dropdown is open, and a pink box highlights the 'Test Again' option. A large pink arrow points to it. The rest of the interface, including the header, toolbar, and table, is identical to the previous screenshot.
